**FX+ CIRCUIT OF CONTINUOUS FURLING LINE**

**FX+ :** the circuit of continuous furling line is easy to install (see against) thanks to the articulated and twin fairleads (See p.12). The loop can be tightened and then secured with a double jammer.

With the different Facnor fairleads, the lines run clearly on the deck  
Above : articulated fairlead (left handside) et twin fairlead (right handside)
