

## ELLIPTICAL SECTIONS R14 / R24 / R26 / R34

This range of sections offers good aerodynamics, and the twin-groove allows easy sail changing.

**We recommend these following finished luff tape:**

**R14 =  $\varnothing$  4.5 mm / R24 & 26 =  $\varnothing$  6 mm / R34 =  $\varnothing$  7 mm**

$\varnothing$  = inner groove = 5,5 mm (R14), 7 mm (R24 & R26), 8 mm (R34)

**CONNECTORS** : please see dimensions on our web site
