

BOWSPRIT FOR GENNAKERS & ASYMETRICAL SPINNAKERS

Fitted-in sheave

from 25 up to 57'

Simple and efficient functioning

Bridle attachment

Automatic locking device

- The central fixing collar is removable from the fixing block. The foredeck is therefore totally free (no more fixed collar in the way).

- Rotating collar captive from the section: removable bowsprit for storage alongside one boat edge

- Easy fixation thanks to an automatic locking device on deck fixing blocks;
- Simple installation (only a short backwards movement is needed to fit the bowsprit on the deck);
- Quick removal & storage on a third fixing block;
- The locking system incorporates an anti-theft device.

- Integrated line stopper for holding the tackline.

integrated line stopper
