

# LB opening snatch block

A full range of light and compact snatch block

> 2-to-1 configuration onto swivel for Gennaker & Code Sail halyard. Various application possible (on deck, pad eye,...)

*The LB 2-to-1 snatch blocks are fitted with polymer bearing replaces the SB models (needle bearing). Facnor has designed this new stripped-down version made in aluminum for lighter, more simple and more attractive halyard 2-to-1 solution!*

Four models from 2 to 7 tons (SWL): 2T / 3T / 4T5 / 7T  
CNC machined cheeks (black anodized) and the sheave (colorless anodizing) offer a light design and resistance. Moreover, the composite bearing lowers the risk of corrosion. No specific maintenance require.
