CLAMPS FOR ANTI TWIST ROPE

In order to facilitate the installation of **anti-torsion ropes** by sail-makers, Facnor has developed a range of highload clamps (Duplex Marine quality stainless steel) :

- Use for asymmetric Spinnaker validated with most antitwist ropes.
- Use for Code sails validated only with some antitwist ropes (please consult us)
- Adapted shape for lashing
- Complementary to Facnor thimble range
- Quick assembly (three types of assembly : with long screws for manual preassembly, with vice or with hydraulic press machine thanks to a special tool)
- 4 models fitted from 9mm to 15mm \varnothing
- Kit including clamp + stainless steel screws (including long screws for preassembly) + thermoshrinkable sleeves

CLAMPS

Model	References	\varnothing A.T. Rope* (mm)	Dimensions		
			$\varnothing A$ (mm)	$\varnothing B$ (mm)	$\varnothing L$ (mm)
FRC D09 mm	24000091090	9	8,5	29	56
FRC D11 mm	24000091110	11	10	31	60
FRC D13 mm	24000091130	13	12	35	62
FRC D15 mm	24000091160	15,5	15	40	67
